## About us

### Dialoge – Bodensee Sprachschule ...

was founded 1991 in Lindau.  
The language school located in the old town of Lindau island offers the perfect study environment for young and old.

We see our school as a place  
where people from different cultures come together, get to know each other,  
improve their skills and share this experience with each other – all in their study language German.

#### Ability to Communicate and to Act

Our students learn the use of German  
according to their needs in communication situations in their day to day or working life.

#### Level regulated Lessons

All four skills (speaking, listening, reading, writing) are taught and enhanced  
within the six learning levels of the Common European Framework in our level regulated classes.

#### Customer Orientation

We meet the individual study needs of each student  
by offering and combining different course and exam programs with the option for self studies in our study islands  
in order to reach our students maximum satisfaction and goals – all within the framework of our curriculum.

#### Ideal Study Environment

By creating appealing facilities, providing an easy-going and open relationship between students and staff members,  
carefully selecting hosts and accommodations as well as offering an interesting and diverse social and leisure program,  
we do our utmost to ensure the ideal environment for a successful language course.
